

SWEEPING.SECONDS

Established in Geneva, Switzerland

This is a physical part of an online calculator which is to be used to take measurements of ones wrist. There are two different tools presented.

C.TOOL on the left is to be cut out and wrapped around the wrist to measure circumference.

W.TOOL on the right is used to measure the width of a wrist in centimeters or inches.

W.TOOL

2. Your wrist width. This tool does not need to be cut out
